

Model 224: Portable Impulse Sealers

Features:

- The portable, lightweight sealing unit weighs only two pounds. It goes anywhere to seal small bags or large equipment covers. It provides a perfect air-tight and damp-proof seal every time.
- A long 8-foot kind-proof cable connects the lightweight sealing unit to an impulse generator. The impulse generator weighs only ten pounds.
- Handy 10" sealing jaws provide ample capacity for many different sealing application.
- Both Teflon® covered jaws provide heat for a fast, positive seal on all types of heat sealable material.
- No preheating is required.
- The time-temperature cycle is precisely controlled by a solid state electronic timer adjustable from a fraction of a second to five seconds.
- The transistorized, sold-state generator operates in any position, provides extended versatility for bag sealing.
- Seals up to two 10 mil film thicknesses.

Specifications:

- Maximum film thickness two 10 mil thicknesses
- Seal 10"
- Electrical supply 110V, 60 Hz.
- Impulse generator 4"W x 7"H x 8"D
