# Semi-Automatic Strapping Machines Model D-53

- Utilizing two DC direct drives,
- D-52 was the first belt-less tabletop strapping machine.
- The D-53 is the second-generation version of this design from Strapack.
- The microprocessor has been upgraded to improve tension control.
- Tension is applied with a steel wheel allowing application of high tension without scuffing the strap.
- Tension is easily adjusted from 4.4 lbs to 100 lbs making the D53 a versatile strapping machine.
- **6 Month Warranty on Defective Parts Only**
- **High Quality Robust Machine**

## ▶ **DESK LIKE BODY**

- It provides a broad work space and maximum foot room

## ▶ **SMALL & FUNCTIONAL**

- Sealing head is located in the right side of the body in order to best utilize the working surface of the table top. Machine body is small and light, easy to maneuver, yet strong and sturdy for heavy packages.

## ▶ **VARIABLE AND CONSISTENT TENSION**

- Tension can easily be adjusted from low to high with a single dial. In addition, tension mode switch offers standard or high tension mode in order to provide a wider range of tension.

## ▶ **QUICK HEATER**

- Only requires 30 seconds to reach operating temperatures.

## ▶ **HIGH SPEED CYCLE**

- Cycle starts immediately after the strap is inserted into the band guide and completes the cycle faster than ever.

## ▶ **ENERGY CONSERVATION FEATURE**

- The motor automatically stops when the machine is idle for a while, and starts again once strap is reinserted into the band guide

## ▶ **STRAP SIZES OPTION**

- This model can be used with strap widths ranging from 5mm to 15.5 mm
